Dear Parent(s) or Guardians,

There is a cell phone incentive in Drama 1 class. Room 105 has a cell phone locker, which holds cell phones in a secure location, attached to the wall, charges up to thirty-four cell phones at once, and PHS administration approved. Students will be given the opportunity to charge/lock their cell phones during their Drama 1 class for class incentives. The incentives are as follows:

- ✔ 2 Extra Credit points each day your student's cell phone is secured for the entire block (82 points total possible).
- ✔ If no student receives a cell phone referral all semester a class celebration will be rewarded.

The lock-up procedure is as follows:

- ✔ Drama 1 students have been issued a number that corresponds to the students cell phone locker location.
- ✔ Upon arrival students will secure their phone/device into the locker over their number under teacher supervision.
- ✔ Locker is locked and a photo is taken to document the date/time of which students participated.
- ✔ At the end of class the locker is opened and students retrieve their devices under teacher supervision.

If you approve of your student participating, please sign the permission slip below. By signing, you understand your child will not be contactable via cell phone during their assigned drama class.

## Alternate Option

If you do not wish to have your student secure their cell phone during class or if they do not have access to an electronic device they may still participate in the incentive. We will provide the student with a laminated cell phone card that will substitute for securing their personal device. **Please be advised this will not keep your student from receiving a cell phone referral if your student has their device out in class.** If you approve of your student participating in this option, please sign the permission slip below.
